CS INSTRUMENTS
MEASURING TECHNOLOGY FOR COMPRESSED AIR AND GASES

Two new evaluation tools for your LD 500 leak detector

CLOUD

LD 500 leak detector

What are the advantages of...

... the CS Leak Reporter V2 (desktop version):

- Paperless documentation according to ISO 50001
- User friendly interface
- User is guided through the software better by the instructions
- More convenient data import from LD 500
- Project master data from the LD 500 are also imported
- Create your own database with measures, leaky elements and spare parts and import them into the LD 500

... the CS Leak Reporter Cloud Solution:

In addition to the advantages of Leak Reporter V2:

- deal for leak detection service providers as well as for companies with multiple locations
- A central database for all users
- Local and end-device-independent data access
- Increased data security through automatic backup in the cloud
- User and roll management – Assign different rights and authorizations to different persons
- No installation necessary - Login with E-mail and password
- No effort required on the part of IT
